Professional, individualized founding of investment funds

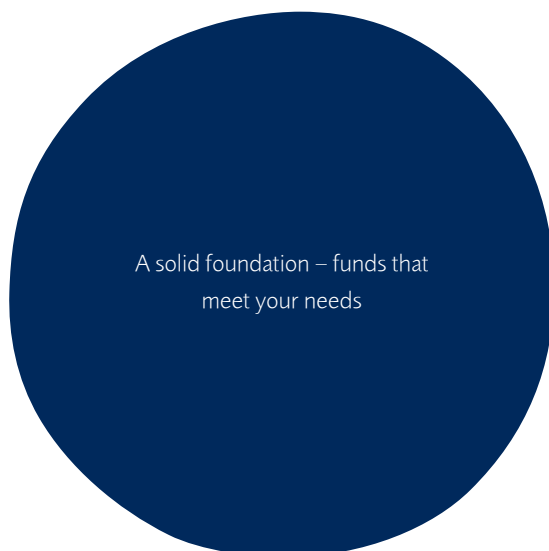

Do you desire to be accompanied in the planning, founding and operative administration of your own investment fund in a way that leaves no wishes unfulfilled? We offer first-rate services at a fair price.

Our fund management companies ensure that you as an asset manager, family office, insurance company or pension fund can invest your client assets in a goal-oriented manner.

You decide on the structure of your fund - we offer you the leeway to issue your fund in an absolutely individualized way. With us at your side, you can determine the name on your own, plan the related costs, and fine-tune the investment policy to accommodate the interests of your clients precisely.

We also take care of the related administrative tasks as well as contacts with the authorities. As a result, you can focus your efforts fully on distributing the fund and managing its assets.

You decide on the domicile of the fund – we see to the founding of the fund, be it in Liechtenstein, Luxembourg, the British Virgin Islands, Cayman Islands or Anguilla. In Liechtenstein, Luxembourg and the BVIs, we offer you the entire palette of banking and administrative services for investment funds and other forms of collective capital investment.
